

14.04.2014 | PRESS RELEASE

We will be exhibiting at IFAT 2014 – Biogas News  
Hall B3 Booth 502 (together with German Biogas Association e.V.)

Once again in 2014, BinderGroup will showcase our biogas flow meter, analyzer instruments and systems of COMBIMASS® series:

News: biogas flow meter:

- Thermal gas flow meter for measuring dry biogas flow at standard conditions according to DIN 1343
- Can be used for monitoring projects (e.g. CDM)
- Various manipulation-safe instruments available (option only)
- New: with a flexible data logger 24 VDC (minimum version can already read, store and transfer data of 2 flow meter, digital data processing and storage on a SD-card, with an integrated display (option only), with data transmission via IP (Ethernet, option only) or via external access, can be expanded nearly without limits, further signals e.g. analyzer data can be logged, stored and transferred too, configuration via user friendly PC-software, mounted on DIN-rails or in a field housing)

**New!**

News: biogas analyzer:

- Modular Click! system now with a new powerful SPC and bigger graphic display, available also in stainless steel housing with power supply components in a separate chamber of the cabinet
- Docking station GA-s feed control to improve time cycles for feeding the digester and intelligent control of gas storage buffer, now comes also with bigger graphic display
